

**VOLUNTARY REMEDIATION PROGRAM
DEPARTMENT OF ENVIRONMENTAL MANAGEMENT**

PROJECT SUMMARY

| | |
|------------------------------------|--|
| Site Name: | Stant Manufacturing |
| Applicant's Name: | Stant Manufacturing |
| Site Location: | 1620 Columbia Avenue Connersville Fayette County |
| VRP Site Number: | 6981003 |
| Project Manager: | Ruth Williams |
| Date Application Received: | October, 1998 |
| Date Project Completed: | May, 2001 |
| Project Duration: | 2 years, 7 months |
| Contaminant Group(s): | Volatile organic compounds (VOCs), semi-volatile organic compounds (SVOCs), metals |
| Media Cleaned Up: | Surface soil, subsurface soil |
| Cleanup Goals Achieved: | Tier II Nonresidential (VRP Resource Guide, 1996) |
| Deed/Land Use Restrictions: | Nonresidential land use only |

Project Description: This site has had six owners since 1898. They have produced lamps, buggy axles, gas tank caps, and radiator caps at this facility. Plating operations were conducted in parts of the facility, but have been discontinued. Investigations of the former barrel plating room indicated that a small area (approximately 12'x12') of the room was impacted by lead contamination. Soil excavation and off-site disposal of the contaminated soil was performed. The excavation was backfilled with clean gravel. The room will be converted to additional warehouse space.
